

Week 2: Faith

BIG IDEA

Biblical faith is not wandering in the darkness hoping you are right. John says the miraculous signs were written so we may believe: faith is trust based on evidence, and like any relationship, the more reasons we have to trust Christ, the deeper the relationship goes.

KEY POINTS FROM THE LEADER VIDEO

- The speaker once saw faith as stumbling in the dark, like breaking his toe in a pitch-black apartment, and many students still see it that way.
- John 20:30-31 says the recorded signs were written so you may believe; John gives seven escalating signs, plus the resurrection, as reasons to believe.
- Biblical faith is trust based on evidence, and just as trust deepens human relationships, knowing Christ better deepens our relationship with him.
- Hebrews 11:1's 'certain' carries the idea of a foundation or substructure, like a basement so solid you never fear the house will cave in.
- Jesus kept his wounds after the resurrection, showing them to Thomas as one more reason to believe he did exactly what he said.
- Create space for students to consider the evidence themselves, so faith becomes their own rather than borrowed from parents or leaders; that faith sticks through college.

SCRIPTURE

John 20:30-31 • Hebrews 11:1

DISCUSSION QUESTIONS

1. Do you have your own faith, or are you still believing what your parents or others told you to believe?
2. Have you considered the evidence God has given for who Jesus is? Is it enough?
3. How does trust between friends grow, and how is that like trusting Christ?
4. How can we help students move from accepting what we tell them to discovering it is true?
